

NST

Dear friend,

Welcome back to On the Radar - your monthly NST newsletter! We're here to give you the news on all things NST. This month, we're here to tell you about another new hire, a client that just can't seem to get enough of us, and a chance to meet your favorite NERC CIP salesmen in person (who else will be in SLC for thePower Systems Security Conference?!?)

New Hire Spotlight - Laith Araim

NST is thrilled to introduce Laith Araim as the newest member of the NSTeam! Laith has just earned a Master's in Cybersecurity and Information Assurance from Western Governors University. With a strong foundation in cybersecurity and a keen enthusiasm for learning and adapting, Laith is sure to make a valuable contribution to our NERC CIP efforts. We're excited to welcome Laith aboard!

Case Study - When Enough Just isn't Enough

This one's about a client who we've been working with since Day 1. NERC CIP versions may not stick around, but NST will! Click the link below to read about one of our longest-running relationships and how we've held their hand every step of the

way, through a diverse range of problems and projects.
